Luxurious overview, luxurious design, luxurious equipment: The Cavalon cockpit can be equipped individually with different options:

"State of the art" GPS displays (e.g. Garmin 695),

a panel for individual GPS installation,

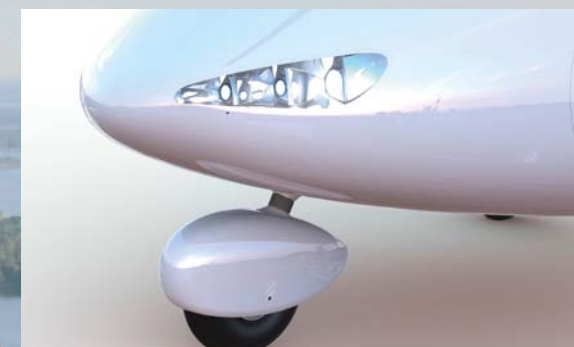

or even up to installed high-end EFIS solutions.

Side by side dreams will come true

The dawn of a new era: the Cavalon by AutoGyro overcomes all restrictions and limits and compels with its unique dimensions. Seated side-by-side, the Cavalon presents its pilot and passenger a space and freedom which is seeking for their own kind.

With excellence in every detail

Great space, great view, great fun – this is how the Cavalon presents its world. With unique perfection, outstanding design and great love of detail it is completely thought through and impresses with huge panorama windows, high range and great comfort.

Technical data

l x w x h: 4,6 x 1,9 x 2,8 m
mtow: 450 (550) kg
Vne: 180 km/h
Vcruise: 145 km/h

rotor: 8,40 m
range: up to 5 h
engine: Rotax 912 / 914
equipment: radio / GPS / EFIS

Always at hand: the throttle/brake unit in the center control stand.

Individually adjustable: pedals can easily be adapted to the pilot's size.

A new dimension: the Cavalon offers a huge interior.
